What the Bailroad is Being, The Gettysburg Railroad has already done wonders, and the work of improvement is but leging that they feared, if they did so, that commenced. All along the line of the Road, the fields whitened with that necessary and most profitable fertilizer, lime, are proof of the spirit with which our farmer friends have entered upon this branch of their calling. whilst the numerous new buildings and general "brushing up" observable, show that they are also determined to enhance the beauty and comfort of their homes. These evidences of enterprise must be grateful to every well-wisher of the county's progress, and we are confident that the good work will continue to go forward.

As an example of the improvement to be seen along the Railroad, let the reader take position at Mr. NICHOLAS HELTZEL'S, some six miles from this place, and he will see within a scope of three-quarters of a mile, no less than four large two-story brick dwellings and two fine bank barns going up .-This is but one instance—many others meet I don't expect it. Ayer's Sarsaparilla
A compound remedy, in which we have la-

bered to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Saraparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints; and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCHOPULA AND SCROPULOUS COMPLAINTS, EMPTIONS AND EMPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SAIT RESENTANCE, SCALD HEAD, SYPHILIS AND STRUILITIC AP-PECTIONS, MERCURIAL DIBRASE, DROPST, NEU-RALGIA OR TIC DOLLOUREUX, DEBILITY, DYS-PEPSIA AND INDIGESTION, ERYSIPHIAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF

THE BLOOD. This compound will be found a great pro-moter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous seres, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores; cleause it when you find it is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tall whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and liss longer, for cleaning the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly/because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sansaparilla,

or any thing clse. During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsuparilla for one dollar Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curnive properties whatever. Hence, litter and painful disappointment has followed the use of the various extracts of Sarsaparilla which fleod the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the lead of olleguy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remody should be judiciously taken according to directions on

Death of Porter, the Kentucky Giant. James D. Porter, widely known as the Kenucky giant, died at his residence in Portland, on Sunday night, the 24th ult., in the fiftieth year of his age, having been born in 1810. The disease which terminated his life was an affection of the heart. Mr. Porter was born near Portsmonth, Ohio, but since 1811, has been living in Louisville, to which city his parents had emigrated. He was seven feet nine inches in height, and when in perfect health weighed nearly three hundred pounds. It is remarkable that for the first fourteen years of his life he was small for his age; so much so, that he was often engaged to ride races on the old track, where the Elm-tree said the 'Squire. DR. SANCORD, Proprietor, 315 Broadway, New York. A. D. Beeheer, Agent, whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live in ager, for clear-ing the blood. Keep the blood healthy, and all is well; but with this

pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown. Sarsaparilly has, and deserves much, the reputation, of accomplishing these ends. But the world has been egreziously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it,

During late years the public have I een misled by large bottles, pretending to give a quart of Extract of Satsuparilla for one dollar Most of these have been frauds upon the sick, for they not only contain little, if any, Sanararilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsapurilla which fleod the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the lead of chloquy which rests upon it.
